

24 January 2023

Dear Colleague

Workipedia is a work rehabilitation interest group that was established to create a platform and opportunity for discussion in various areas of vocational rehabilitation. Its goal was to establish a space for open communication that would enable therapists interested and/or actively working in this field to learn from peers and share ideas.

Workipedia has been privileged to welcome a variety of speakers within the profession to present over the years; who have generously given of their time and expertise to come and lead discussions pertaining to various topics. We strive to ensure that the topics selected for our yearly program are inclusive of ideas and areas of interest expressed by our members and attendees during the course of the year.

So, without further ado, we would like to welcome you to **Workipedia 2023**:
